August 26, 1992

Bryce H. Jeppsen
76 West 500 North
Mantua, UT 84324

Dear Mr. Jeppsen:

The water rights you are concerned about I believe, based on the information you gave in the letter, are in the name of Bunderson Family Partnership.

The water rights, which have included the use of reservoirs, are 29-2866, which has a sole supply of 4.83 acres and 29-1649 with a sole supply of 22.85 acres. The priority on the east spring is 1881. The priority on the unnamed spring area is prior to 1900.

Neither of the ponds listed above are at the location you described as being 300 yards south of the point of diversion on Claim 29-954. The only right from that pond is a stockwatering right under 29-2456.

If you have additional questions or need additional assistance, please call and set up an appointment to come in the office, or have someone from the office meet with you in Mantua to review the situation.

Sincerely,

Robert M. Fotheringham, P.E.
Northern Regional Engineer
